Subject: Badger culls and contractors hired

Dear xxxxxxxx,

Do you know if the NFU would be able to inform me what proportion of the contractors hired to shoot badgers in Gloucestershire were restricted in the hours they were able to shoot due to having to go to work the following morning?

Also is this proportion higher than the proportion in Somerset?

If you need me to send to you further details to allow you to answer this question, please let me know what information you need.

Yours sincerely,
