Notes:

data for 1998, 1999 and 2000 is for main holdings only. Subsequent years are for all holdings

the Foot & Mouth outbreak of spring 2001 meant a smaller June Survey than in other years. Consequently data is not available other than at an all-Wales level

data from (and including) 2007 is sourced from Cattle Tracing System

holdings are assigned to county based on their County-Parish-Holding (CPH) reference number

xxxxxxx,

Thank you for your e-mail. I apologise that your original request was
not answered. Please find a spreadsheet attached which I hope contains
all of the information that you require. I've included a note on the
table itself but the county breakdown isn't available for 2001. This was
because we scaled down the sample size of that year's June Survey as it
was very shortly after the Foot and Mouth outbreak in the spring of that
year. If there's any further information that you require or you have
any questions then please get back in touch.

Regards,

xxxxxxxx

Dear Sir/Madam,

I do not appear to have received a reply to this email.

Since this data would be valuable to me I would be grateful if you could
send to me a reply. If you are unable to send to me data for all years I
would be grateful if you could just send to me what you can. Please note
however that I am looking for a county breakdown for which Gwynedd is an
example of county for which I would like data.

Yours faithfully,

xxxxxxx.
