Subject: Bovine TB: Meaning of "Herds not Officially TB free due to a bovine TB incident"

Dear Sir / Madam,

In the data which you make available on your web site for download in Ref 1, what does the data in the column headed "Herds not Officially TB free due to a bovine TB incident (non-OTF Herds)" represent?

Does it include herds which have been restricted due to overdue tests?

Ideally I am looking for a "Yes / No" answer.

Yours faithfully,

xxxxxxx.

Dear xxxxxx

In response - no, the column 'herds not officially TB free due to a bTB incident' does NOT include overdue herds. However, 'herds under movement restrictions at the end of the period due to a TB incident or overdue test' DOES include overdue herds.

The above is referred to in columns D and R in

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/310859/bovinetb-regional-14may14.xls](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/310859/bovinetb-regional-14may14.xls) in the worksheet GB Monthly.

Regards

TB Statistics
