Subject: Impact of Foot and Mouth

xxxxx

Sorry for the delay in replying to you. I have been trying to find the information that you requested. I have attached links to the following 2 documents -

1. "The Agricultural Census in Northern Ireland Results for June 2001" and
2. "Independent Review of Foot and Mouth Disease in Northern Ireland" June 2002 by Pricewaterhousecoopers.

<http://www.dardni.gov.uk/pubs-dard-statistics-census2001>

<http://www.crossborder.ie/publications/northern-ireland-review-of-foot-and-mouth-disease/> - If you click on the final paper PDF icon it will open up the report.

The 2nd document on page 31 details the number of animals destroyed - 50,565.
The 1st document on page 17 gives the number of cattle and calves in 2001 - 1,679,100. This answers (a). However I am unable to find details in relation to query (b).

I hope these documents are of help to you.

Many thanks.
