Subject: RE: Number of animals tested and slaughtered for bovine TB - Ireland

Dear xxxxxxxx

I attach monthly TB data for the years 2002-2010:

(a) the number of animals tested for bovine TB

(b) the number of animals slaughtered (Reactors) due to bovine TB

Each excel sheet contains the information you require (separate tab for each month) including additional information which might be useful to you.

Totals are at the bottom of each sheet with the corresponding date for the previous year.

As we do not have monthly data for years 1998-2001 I enclose annual data instead.

Regards

xxxxxxxxxxxxx
