Subject: Bovine TB: Number of reactors slaughtered in New Zealand from 1956

Dear Paul,

If you can, please send to me the number of TB reactors slaughtered for each year from 1956 to 2010 in New Zealand as a dataset which contains the following quantities in each row.

- (a) year
- (b) number of cattle which existed in that year,
- (c) number of TB reactors slaughtered, and
- (d) number of cattle tested.

If you can supply this data, a simple CSV file will be ideal or, failing this, a spreadsheet which includes this information will be fine.

Yours faithfully,

XXXXXX,
XXXXXX,
XXXXXXXXXX,
XXXXXXX.
