Dear xxxxxxxx,

Thank you very much for your enquiry.

The Herd Testing Interval (HTI) for the recently affected premises in Penrith, Cumbria, was 3 years at the time the breakdown was discovered.

Yours sincerely,

xxxxxxxx

Dear Sir,

If you can, please advise me of the testing interval at the time TB was discovered on the closed farm near Penrith, Cumbria, where 100 animals were recently slaughtered. A reply by email will be fine.

Yours faithfully,
